Forecast for Sunday 21 Mar 2021

Weather: Becoming cloudy overnight but staying mostly dry until morning. Then a mostly cloudy day with a little rain or drizzle at times, but bright or sunny spells developing from mid-afternoon with cloud becoming more broken. Dry with clear spells in evening

Chance of cloud free mountain/hill tops above 600m: Around 30% through the morning but increasing to 80% or better from mid-afternoon

Visibility: Mainly good beneath cloud, but some reductions in patchy rain and drizzle. Poor at height with periods of cloud above 400-500m, but this gradually breaking and lifting in afternoon to leave patchy cloud over the tops by evening

Forecast for Monday 22 Mar 2021

Weather: Clear spells overnight and perhaps a frost in valleys along with risk of fog patches. Then a bright or sunny start to the day but becoming cloudier and thicker cloud in west later will bring risk of patchy rain or drizzle towards evening

Maximum wind: Northwest 5-10mph becoming westerly 10-15mph, but southwest 15mph later in day.

Chance of cloud free mountain/hill tops above 600m: 70-90%, but becoming 30% in west later in afternoon.

Visibility: Mostly good beneath cloud but very poor in any early fog. Patchy cloud at summit level overnight and into the morning, but then scattered perhaps broken cloud above 600m and periods of cloud above 500m in west later in day.

Temperature: **Valleys:** Around Zero C at first, rising to plus 9 or 10 C, but 12 C in east
At 600m: Plus 3 C
Freezing level: Above summits
